POLITICAL PARADE

By CLEM WHITAKER

Governor Earl Warren, a veteran of World War I, will sign a batch of bills for veterans of World War II during the present 30-day bill-signing period which should go far toward extending a helping hand to California service men when they come home to don civilian clothes and take up normal lives again.

The legislature's program for war veterans, now on Governor Warren's desk for final action, is patterned in many respects after the program enacted following the last war. It provides for generous aid in the purchase of farms and homes, in tax benefits, in securing work and in assisting those whose training was interrupted to complete their education.

The California program, however, does not provide for bonus payments, as the bonus legislation will come later and will probably be enacted by Congress rather than by the individual states.

Veterans of this war, when they come back, will have a head start over their buddies of the first World War, due to the fact that the program will be set up and waiting for them. The men who went "over there" in 1917 and 1918 and who are now well represented in the legislature and in other positions of public trust, took care of that detail.

Here are the major proposals in the new program:

A \$30,000,000 bond issue to continue the Veterans' Farm and Home Purchase Program for men of this war. The bond issue, which will be submitted to vote of the people next year, will be used to create a loan to aid the service men in getting homes and farms on liberal credit.

A \$2,000,000 revolving fund to get the farm and home program started.

A \$500,000 educational fund to aid vets in finishing their schooling.

A \$1,000 exemption on local property taxes, similar to that enjoyed by past veterans. State Income Tax exemption for the duration.

A two-year extension of the "freeze" on unemployment insurance benefits for veterans.

First choice on 50,000 jobs to be made available under a proposed \$70,000,000 highway building program after the war.

A preference over all other candidates in civil service examinations for public positions.

A son, Rodney Eugene, was born to Mr. and Mrs. Warren Martin of Campbell at O'Connor sanitarium, May 11.

Percy Wightman, who underwent a major operation recently at the county hospital is improving satisfactorily according to reports.

County Unit of State War Fund To Meet Here

A meeting of representatives from the various organizations and clubs has been called for May 28, at 8 p. m. at the Campbell Union Grammar school to join with representatives from other sections of the county to form the Santa Clara County War Fund organization as part of the State War Fund, Inc.

Robert F. Benson, temporary chairman of the county committee will be present and open the meeting.

Representatives from the Community Council, the Red Cross Council, Chamber of Commerce, Kiwanis club, Pundita Circle, Country Woman's club, Cambrian Home and School club, Cambrian Men's club, Congregational Men's club, Women's Service club, Sigma Sigma and Kill Kare club are requested to attend.

Local P.-T. A. Units Hold Joint Meeting

The Campbell Union High and Campbell Grammar School P.-T. A. units held a most interesting meeting in the high school auditorium on Wednesday afternoon.

The flag was carried to the stage by a group of Boy Scouts and the salute was led by Sgt. Dean Chamberlin, formerly a member of the high school faculty.

Mrs. H. F. Cousins, president of the high P.-T. A. and Mrs. C. P. Klassen, president of the grammar P.-T. A. each gave a few words of welcome to the members and guests.

The a capella choir of the high school, under the direction of C. P. Klassen, sang three songs of a patriotic theme, which were greatly enjoyed.

The grammar school orchestra, under the direction of Richard Gordon played two interesting selections.

Miss Florence Smith of the high school music department then gave an outline of the courses in music given at the school.

The remainder of the program was announced by Mrs. Clarence Fagalde. She introduced Chalmers Donaldson of the School for the Blind in Los Gatos. He was accompanied to the platform by his guide dog for the blind, Blondie. His talk was most interesting and educational and he demonstrated the technique in the training of these dogs. His most important message was that we with sight should give the blind every opportunity to help themselves.

An announcement was made concerning a visiting nurse's service sponsored by the Red Cross in San Jose. Anyone under a doctor's care may apply for this service by calling the Red Cross.

After the meeting, delicious refreshments were served by the high school faculty members and the grammar school eighth grade faculty members.

Members of Country Woman's Club Enjoy Interesting Talk by WAAC

A varied and informative program was enjoyed by members of the Country Woman's club on Monday afternoon.

Mrs. W. R. Morgan, chairman of the day, introduced Auxiliary Gones of the Women's Army Auxiliary Corps who spoke to the club after two hours notice that Lt. Jevne, originally scheduled to speak, was ordered out of town. Auxiliary Gones described a day in a WAAC training camp. She told of the various types of duty to which they are assigned after the completion of their training program. Over-seas duty is not given to those women who do not request it. There are WAACS serving in England, North Africa, New Guinea and on other foreign fronts.

Also of interest on the program was a moving picture presented by the Santa Clara Tuberculosis association. Miss Ann Castillanos, public health nurse, gave a brief talk and answered questions on the subject which is a vital one today as the war has brought a sharp increase in the disease.

Students from the music department of Campbell Union High school presented a program under the direction of C. P. Klassen.

Violin duets were played by Russell Wolfram and Carl Sorensen. Miss Ruth Cousins, accompanied by Miss Nina

Page, sang "British Children's Prayer" by Jacques Wolfe and "By the Waters of Minnetonka" by Thurlo Lieurance. The latter song was accompanied by Russell Wolfram in violin obligato.

"Minuet" by Paderewski was played on the piano by Miss Page.

Preceding the program, Mrs. G. E. Jeffers presided over a business meeting at which time Mrs. Earl Booker was voted into the club.

The club also voted to have a telephone installed in the library for the use of the librarian in her business transactions with the main county library.

It was announced that chairs owned by the club had been loaned to the Red Cross for the classes in making surgical dressings.

Members of the club who served at the U. S. O. Snack Bar were: Mrs. A. W. Wellington, Mrs. Milton Robertson, Mrs. Joseph Agostinho, and Miss Dorothy Dean. Those making sandwiches included Mrs. F. A. Jacobson, Mrs. C. B. Field, Mrs. H. E. Hansen, Mrs. C. B. Reynolds and Mrs. B. T. Morgan.

The clubroom was colorfully decorated with arrangements of red, white and blue flowers.

Those assisting Mrs. Morgan were Mrs. Monica Parr, Mrs. George Burrow and Mrs. M. F. Hughes.

Council Elects Directors and Officers for '43-'44

The Campbell Community Council met last Thursday evening and elected officers and directors for 1943-44.

Mrs. R. H. Hyde was elected president; E. E. Lanphear, secretary-treasurer, and vice president and campaign manager for the fall solicitation to be selected.

Other members of the board are:

Miss Jessie Lewis, Mrs. H. F. Cousins, Mrs. A. W. Wellington, Mrs. G. E. Jeffers, W. H. Van Dyke, L. J. Carboni, Howard J. Smith, C. J. Finley, Mrs. Clarence Fagalde, Miss Gussie Hintz, Miss Ruby Howes, Ed. Wiesendanger.

Ira R. Abbott, M. E. Purmort, J. F. Levenberg, W. R. Coupland, Mrs. Anthony Juras, Mrs. Edna F. Smith, Miss Helen Stray, LBen Howard, Jack E. Murdock, Martin S. Walsh, H. M. Shadle.

Red Cross Classes Draw Many Local Workers

The new Red Cross surgical dressings classes got off to a fine start Monday evening with 31 women working under the instruction and supervision of Mrs. Charles B. Polhemus of San Jose, Mrs. E. L. Farnham, chairman of the local work, and Mrs. L. C. Shank and Miss Dorothy Merriman.

Many of the ladies have registered for both evening classes, Monday and Thursday, but both classes promise to be a success.

The day class will begin tomorrow, Friday, with hours from 9 a. m. to 3 p. m.

The tables for the surgical dressings work are segregated from the sewing units and the ladies all wear washable gowns and head veils, which are kept in the room except for laundering, as every thing must be meticulously clean, and the dressings are sterilized several times.

COUPON BLUES

Coupon blues set in about the last day of each month when someone suddenly wakes up to realize that she hasn't "spent" all her stamps, or that she missed the date when some of them were due. A commando raid by the kitchen battalion on the makers of coupon dates is indicated.

Why, ask the women, do sugar dates run out one day? Coffee dates another? Blue and red stamps cease to be good if you haven't used them on a certain day? Gas coupons stop operating the red pump twenty-four hours after the appointed time?

Why not, ask the same belligerent questioners, make all the coupons good for a month at a time, from the first to the last day, rather than overload an already overloaded calendar with dates like the 15th, the 21st, the 22nd? Since we already have a Gregorian calendar, why not suit the coupon calendar to it?

But until such reforms are instituted, the newspapers print your coupon remembrance dates. Grocery stores carefully make every change in point value on the canned goods, and post the number of the stamps then valid, and the dates for its acceptance.

TIME FOR CANNING

Price Administrator Prentiss M. Brown, in a recent announcement that a top limit of 25 pounds of sugar per person will be allowed for home canning and freezing of this year's fruit crop, strongly urged housewives to put up fruit in sufficient quantity to take care of their families' entire needs, if possible.

Sugar for home canning will be allocated on the basis of one pound of sugar for each four quarts (or eight pounds) of the finished product. And it is interesting to note in this regard that the government suggests the housewife should try to provide a minimum of 125 quarts of fruit and vegetables per person.

Home canning has sometimes been pictured as a forbidding and mysterious task, but that's just Axis propaganda, according to the government experts. Says one home economist: "Canning, unlike cooking, requires no imagination or creative talent. It isn't hereditary or mysterious. It's precise, mathematical and organized. If you can mix a baby's formula, work on a production line, type a letter with margins, or add up a bridge score, you're a canner."

So let's get on with the canning. When winter comes, we may be glad we perspired a bit during the summer.

CANDID CAMERA

Photographic reconnaissance aircraft of the R. A. F. fly so high they can seldom be seen from the ground, and are never heard. Cameras must be electrically heated to prevent frosting of the lenses at such heights and the photos are snapped while the aircraft flies at tremendous speed. Enlarged to 50 times their original size, they are still completely clear! After the war, when we can use such things for toys again, snapshots will certainly show us ourselves as others see us!

RACE ISSUES

The South does not want a race issue to make political cause at a time when it is already heightened by war problems—such as the presence in the south of thousands of negro troops. Action is being taken by both white and negro leaders in the south, centering around conferences now in progress. There is conviction in some southern states that progress is being made toward a better solution than has yet been found.

THOSE STRANGE ALEUTIANS

Only a few years ago, most of us had never heard of the Aleutian Islands. Or if we had, we discounted the knowledge. Now we know that Kiska is the nearest point between Tokyo and the United States territory of Alaska. That Kiska is only 875 miles from Kamchatka of the U. S. S. R.

Many U. S. soldiers are living in these strange volcanic islands, literally dug into the ground against the weather. Many tales are told about the climate—as weird as the tales of the Gremlin mischiefs of the R. A. F. They say islands pop up suddenly out of the sea, and vanish as quickly for no good reason. That the wind blows west on your right side, and east on your right! That the sky hangs only 50 feet above the ground at times.

U. S. airmen flew through incredibly bad weather to plaster Kiska with bombs during April. But few reports of results ever reach us because the clouds that hang over the islands obscure actual effects.

That this battle front has peculiar significance to the prosecution of the war is certain. The U. S. can scarcely afford Japanese entrenchment at such a point of vantage to our northwest piazza! Nor can Russia enjoy such a deceptive camper still closer to her own side door.

ODDS ON VICTORY

Cables from London report that the Allied victory in Tunisia has caused a sudden spurt in wagering on when the war will end, with the betting marts offering even money that Italy will be knocked out by the end of the year and that Germany will be beaten by November, 1944. London's financial district, too, reflects the wave of optimism, with a sharp rally in the bonds of occupied countries, particularly those of France, Greece and Poland. The new odds on victory may be fully justified in the light of recent developments on the war fronts, or they may be colored a bit by wishful thinking. Probably the best way to place a bet on an early victory is to put every dollar we can afford into war bonds. That's a bet that's certain to pay off!

NO FISH STORIES?

The "complete angler" this year will be the youngster with bent pin on the end of a string, fishing in the old swimming hole! Full season for the American fisherman is on, but where is the fisherman, and where is the chance to fish?

The inland angler, if any remain who are not carrying guns, or manning a forty-eight hour war job, will be happiest, for the salt water fisherman must confine himself largely to the beaches. Only a few salt water spots remain open—one off the Santa Monica pier, where you may go ten miles off-shore—if the Coast Guard likes your looks!

Inland, the haunts of fishermen were usually reached by automobile. But California has thoughtfully planted an unusually large number of big trout in the rushing water of the San Gabriel Canyon, only 25 miles from mid-Los Angeles. You could walk it if fishing takes you that hard!

THE BOOK MARK

by marty

This week the Book Mark has a confession to make. When making out my budget, allotting time for this task and that, it seems that the minutes budgeted for reading were used up on other things. However, several new and exciting books have arrived and even though I have not read them through, I have read enough of each to get excited about them.

"Ship's Doctor" by Rufus W. Hooker, M. D. is one book that I have been trying to get for several weeks and today it came. It is an autobiography of a surgeon at sea. For 14 years Dr. Hooker has been a seafaring surgeon and I'll not sleep one minute until I find out, at least, a few of his exciting and dramatic experiences. Right in the beginning of the book he mentions about having brought back wounded from Pearl Harbor and the Philippines, but further on in the volume, and perhaps the appropriate climax of his story comes when he tells how aboard an unconvoyed ship with three submarines in sight he decided to remain a ship's doctor for the duration.

The second book on the list of recent arrivals is "There Is A River," The Story of Edgar Cayce by Thomas Sugrue. This book I have read most of, but I do not feel capable of reviewing it until I have completed it. But just to give you an idea of what it is about, I will say that Edgar Cayce is a person seemingly possessing the power to help people—to cure people who are sick—with super human insight. Edgar is a humble soul, and has striven all of his life to live as other people do—yet when he was very young it was discovered that he was blessed with this strange power. There are many cases cited in the book where he has affected complete cure for ailing people. These cures have been observed by medical and professional men and have been verified. He is now sixty-six years old and has lived a most extraordinary life. What I have read about him is enlightening, deeply interesting and certainly urges me on to finish the book.

Broadway Play Scheduled for 28th

BORIS KARLOFF

"Arsenic and Old Lace" will be the first New York original company Broadway comedy to play in San Jose, and from the heavy advance sale of seats, it is but the first of a series of New York stage plays which will make San Jose a part of the itinerary of West Coast showings of Broadway successes.

The "riotous thriller" gives a single performance in San Jose on Friday evening of next week, May 28. Boris Karloff in person, with Josephine Hull, Ejan Adair, John Alexander and Edgar Stehli will enact the brilliant, fantastic scenes of this utterly irresistible New York show.

Over the Tracks

In the old days when a new railroad town was built, it was settled from the first which side of the town was to be fashionable and which was not.

finish the book.

Just one more I wish to mention before the end of the column, and it is a volume of short stories, "Winter's Tales" by Isak Dinesen. There are eleven stories in this volume and they encompass, in their range and variety, the natural and the supernatural, the world of reality and the realm of the incorporeal. There are evocations of moods, mystical and aglow with life, which linger long in one's memory. There are tales of fantasy and actuality, wrought with almost incredible wizardry. This author's first two books, namely "Seven Gothic Tales" and "Out of Africa" were selected by the Book-of-the-Month club.

Aid to Enemy

"Any American who wilfully neglects to pay his taxes on time or to invest every cent he can in War Bonds is surely giving aid and comfort to the enemy. . . . We have a job to do and we are all called for service to our country. Our dollars are called to service too. Let us all ask ourselves, 'Shall we be more tender with our dollars than with the lives of our sons?' — Secretary Morgenthau.

Second Lieutenant Jack W. Aldrich, Campbell Marine Corps pilot, has been assigned to duty with a Leatherneck aircraft squadron at an undisclosed Naval air base, it was learned here this week. The assignment followed his return to duty for a recent 15-day graduation leave.

Lt. Aldrich, son of Mrs. Grace E. Aldrich of Rt. 1, Box 274A, won his wings and commission with the Marines upon completion of advanced flight training at Corpus Christi, Texas.

A former student at San Jose State college, he has been in the service since last August.

Live for Others
 Life is bestowed upon us in order to be lived for others.—Evangeline Booth.

Hour of Music To be Held at Church Sunday

Selections from Mendelssohn's oratorio "Elijah" will be sung by the choir of the First Congregational church of San Jose Sunday morning at the Campbell Congregational church.

The choir is composed of twenty-seven voices and solo parts are sung by Donna G. Freenor, soprano; Katherine Lee, Christie Lyle, contralto, L. B. Cain, Francis Freenor, bass; Dennis Bennett, tenor; Joan Stirling Long is organist; and Donna Freenor, directs the choir.

It is an unusual courtesy for a church to loan its entire choir for a morning service, but one which will be greatly appreciated.

Public Concert At High School Sunday Afternoon

The music department of Campbell Union High school will present a program of music this Sunday afternoon, May 23, at 2:30. This will be an unusual treat to hear all three organizations, the orchestra, band and a capella choir, perform one one program.

The band will open the concert at 2:30 on the entrance steps to the high school auditorium. Such an open air concert is always appreciated by many and the people may listen to the band from the lawn or use the chairs that will be available.

After the band concert the orchestra and choir will conclude the program in the auditorium. This program will consist of individual and group numbers that will add variety for entertainment and education.

The complete program is as follows:

Band selections — "Star Spangled Banner," "The Thunderer," "Will You Remember?" "Rhythms of Rio," "Flirtations." Old-timer selections, "Sidewalks of New York," "Take Me Out to the Ball Game," "Soliloquy," "Emblem of Victory."

A capella choir—"Walk Together, Children," "Deep River," "All Through the Night," "Praise Ye the Lord," "Listen to the Lambs," Ruth Cousins, soloist; "Cherubim Song," "Choral Blessing."

Orchestra — "Kurdistan," "Sevilla," "Sentimental Rhapsody," with Nina Page, piano soloist; "Stars and Stripes Forever."

Anderson Will Not Broadcast During May

Forced by the press of naval affairs investigations work Congressman Jack Anderson today in a telegram from Washington reported it would be impossible for him to make his usual radio report during May to the voters of his district. Anderson has been continuing investigations assigned to a sub-committee of the House Naval Affairs committee, of which he is a member.

The Congressman will return to the air during June, and declared the material gathered in his investigations of problems allied with the war effort would provide material for an interesting discussion.

The Congressman said it might be a long time before

sody, with Nina Page, piano soloist; "Stars and Stripes Forever."

Vocal solos with orchestra, by Ruth Cousins, "Sylvia," and "Morning."

This is an opportunity to enjoy an afternoon of music that is free and given by local students.

Net All on Radio
Dr. Charles Earle Funk estimates there are one million words in the English language. He explains that no dictionary includes anything like this number of words but in speaking of the "English language" one must consider all the so-called Anglo-Saxon words, all technical words, all slang words throughout the centuries and a number of other categories. Dialects and localisms and all the words used by English-speaking people among themselves in whatever corner of the globe also must be included.

War Takes 96¢ Of Each Dollar

Out of every \$18.75 that is invested in a War Bond, \$18 goes into guns, planes, tanks, ships and other military equipment. The 75 cents goes for ordinary governmental expenditures. Out of every dollar 96 cents goes toward the war effort and 4 cents goes for Government "business as usual."

The same ratio applies to all other securities the Government has offered investors in the Second War Loan campaign for 13 billion dollars.

What You Buy With WAR BONDS

The ordinary machine gun is too cumbersome for our Marines, especially for parachute troops. So the Marines have adopted new models of the Reising sub-machine gun, a 45-caliber weapon.

The new gun used by the paratroops is a compact model with a pistol grip and a steel-frame stock which folds out of the way when not in use. You can help buy these for our Boys in the Solomons and elsewhere with your purchase of War Bonds. Join the Payroll Savings Plan and let's "Top that ten percent."

What You Buy With WAR BONDS

The tradition of American cavalry threads back to Indian warfare days and although modern armies are largely motorized today, the cavalry still plays an important role. Sturdy, well trained horses and excellent equipment and trappings are necessary.

When men are in the saddle for a day, their saddles, saddle rails and other equipment must be made to stand the wear. Complete with carbine and helmets, the equipment for the cavalryman runs into hundreds of dollars. You can help provide this with your War Bond purchases. If you have not done so, join the Payroll Savings Plan and put ten percent of your income into War Bonds. U. S. Treasury Department

Kidneys Must Work Well

For Every To Feel Well
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. Old Time Eating is NOT RATIONED

Even though inch-thick steaks and chunky roasts of choice cuts are going where they are needed most, the Yanks on the Home Front won't go starving.

No sir, not by a tummyful. Yankee housewives know what to do with meat scraps, an onion or two, a few carrots, turnips, potatoes and dashes of proper seasoning.

Victory Gardens will provide the rations from the field. Mr. Mulligan's stew will be patriotically popular along with nutritionally good boiled dinners and the savory kettle of home made soup.

And besides—the best can opener today is a depth bomb that rips open an Axis submarine.
